

# Example of an accurately completed scoresheet for a Frostbite round

Always give your first name and surname

Use an appropriate scoresheet for the round (Metric/Imperial/Frostbite)

Identify the round you are shooting

Remember to provide the date

Identify the bow type you are using

Six arrows is an end. Record the end scores here, from highest to lowest.

Give the number of hits in the two ends (H)

Add the two end totals to find the sub-total (S)

Update the running total (R/T) after every two ends

After Each end, calculate the end total (E/T)

Both the archer and the scorer need to sign. The scorer's signature comes second.

Total hits

Total golds

The total score should come to the same number as the sub-total

Give the number of gold in the two ends (G)
